Small in scale yet rich in character, the Archives Spot Table brings a jewelry like accent to the room through its sculptural form and luminous metal surface. The 24 inch round silhouette is fully clad in metal with a hammered texture, creating subtle variations that catch and reflect the light while giving the table a distinctive sense of depth.A Satin Brass finish enhances the hammered surface with warm metallic tones, balancing the table's refined character with the individuality of its textured detailing. The simple round shape allows the material to take center stage, giving the piece an artful presence without feeling overly ornate.Perfect beside a chair, sofa, or anywhere an additional surface is needed, the Archives Spot Table introduces a polished counterpoint to wood, upholstery, and other natural materials. Its combination of warm Satin Brass and richly textured metal transforms a versatile accent table into a distinctive finishing touch for the room.
