ALUA

ALUA is a versatile aluminum dining chair, designed for numerous different environments, whether it's a private balcony, a public park, or a restaurant.

The chair is built on the design concept from the HOUË ReCLIPS Dining chair and requires minimal maintenance.

ALUA is available in three colors and offers the choice between models with or without armrests. Designed for easy stacking, it can stack up to 10 pieces.

The curved aluminum slats are shaped to provide you with a comfortable seating experience and to give the chair a soft and inviting appearance.

Designed and produced with durability in mind, ALUA is built to endure many years outdoors – and comes with a 5-year warranty. To further extend the lifespan of ALUA, spare parts and repair lacquer are available for purchase.
