

Humanscale®

*element 790™*  
LED Task Light

Element 790 looks different because it is different. Imagine what a task light would look like if you never had to change the bulb. The socket would go away.

Then, consider what would happen if the optics could be contained in just a quarter inch of height. There goes the shade and reflector, too.

Next, add extremely low power consumption and an exceptional lifespan.

The next-generation LED in this task light offers all of the above. And the form of Element 790, in particular the unique shape of the head that keeps the high-powered LED cool, is simply an expression of the technology it embodies.

We hope you enjoy Element 790 as much as we do.

# Using Element 790

Element 790 is adjusted by simply moving the head into the desired position—the arms adjust easily without friction knobs.

Element 790's unique head offers front-to-back and side-to-side rotation to direct light exactly where it's needed.

# Cleaning Instructions

Use a soft cloth to clean or dust the lamp.

For heavy dirt or residue, use a soft cloth lightly dampened with soap and water or another mild cleanser.

**Warning:** Do not use alcohol, abrasives or harsh solvents.

# LED Replacement

Element 790's unique LED featuring MCX Technology™ has a rated life of 60,000 hours.

However, in the unlikely event the LED does fail, Element 790's LED assembly can be easily replaced to extend the useful life of the light.

Contact Humanscale Customer Service at 800-400-0625 for more information.

## WARRANTY

The following Warranty is in lieu of all other warranties, express or implied, including, but not limited to, the implied warranty of merchantability and fitness for a particular purpose.

Humanscale warrants on Element 790 light:

### **5 years: all components**

This Warranty is applicable to the initial purchaser only and is non-transferable. Humanscale warrants that, at the time of customer's acceptance, the product will be in good working order and will be free from defects in materials and workmanship. This does not apply to normal wear and tear or damage caused by accident, neglect, misuse, or improper installation or operation. Humanscale will not be responsible for damage due to service, maintenance, modifications or tampering

by anyone other than a Humanscale-authorized representative.

In the event a product is defective and Humanscale receives written notice of the defect within the Warranty period, Humanscale, at its option, will either repair or replace the defective product. This Warranty does not cover damage caused by a carrier, or transportation of the product from one location to another, or alterations made by owner.

### **Limitation of Liability**

In no event will Humanscale be liable to purchasers for any special, collateral, incidental or consequential damages, however caused, whether by Humanscale's negligence or otherwise.

# Element 790 and the Environment

Element 790 is the most efficient and sustainable task lighting solution available today. Thanks to groundbreaking MCX LED Technology™, it consumes very little power and offers extraordinary long life. Incorporating Element 790 into an office lighting scheme allows lower levels of ambient lighting for additional energy conservation.
