

24 Karat Blau Floor
AXEL SCHMID 2009/2017

Metal, eight plates with gold leaf cast in acrylic glass. The floor lamp from the 24 carat blue family. With 200 cm red plug cable and pull switch on the socket. The shades are manufactured in Japan using a unique process in which wafer-thin gold leaf is cast into acrylic by hand. Only short-wave blue light can shine through between the gold layers, while yellow-gold light is reflected. This light effect is also created when an LED filament light source is used.

Light source

E27 socket, max. 60 watts Supplied without light source. Suitable for LED filament or halogen lamps, energy classes A-G.

Technical data

For 230 or 125 volts. With pull switch.

More info

Available since April 2018.
