2

1. First, check the lamp body,
If you find the glass is loose,
please use a tool(C) to lock it tightly.
2. While holding the lamp body towards the wall, connect the electrical wires.
Observe polarity: black to power, white to neutral, and bare copper wire to green ground. Connect fixture wires to supply wires using wire nuts(B).
3. Attach lamp body to mounting plate then lock it securely with the flat screws.
