Install the Fixture

- 1** Secure the mounting plate to the junction box.
- 2** Screw the half ball to the stem which will be on top.
- 3** Determine the wanted height or look of the fixture with the provided stems, then assemble them by screwing them together, do not include half ball/stem assembly.
- 4** Feed the fixture wires through the stem assembly, then screw the stem assembly to the fixture.
- 5** Feed the fixture wires through collar nut, canopy, and the half ball assembly, then screw the half ball assembly onto the stem assembly.
- 6** Slide the half ball assembly onto the screw collar on the mounting plate.
- 7** Connect the negative (-) fixture wire to the negative (-) output driver wire with a wire nut.
- 8** Connect the positive (+) fixture wire to the positive (+) output driver wire with a wire nut.
- 9** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 10** Connect the white input driver wire to the neutral power line wire with a wire nut.
- 11** Connect the black input driver wire to the hot power line wire with a wire nut.
- 12** Neatly place all the wires into the canopy/junction box, place the canopy onto the mounting plate and secure it in place by screwing the collar nut tightly onto the mounting plate.
