

DORVAL 04

Based on SCMP DESIGN OFFICE's original pendant prototype Dorval 01, this collection is layered in history, a subtle interplay between contemporary and vintage industrial design. Drawing equal inspiration from airport runway lights and the classic Motobecane french moped, the result is a light both confrontational and intriguing—one which poses an immediate invitation to play.

When plugging in the luminaire, wait 5 seconds before touching the sensitive end cap.

3 touches = Turn ON 100%

PROGRAMMING

4 touches = Cycle colour temperature (CCT) value between 2200K-2700K-3000K-3500K-4000K.
Repeat the 4 touches in between each value. Light will blink to indicate it has switched from a value to the other.

5 touches = Set to dim-to-warm mode (3000K to 2200K). Light will blink two times to indicate it has recorded the value.
