LEAF

During the creation of the Leaf pendant, the designer was mainly inspired by the uniqueness of the palm tree leaves, while travelling in Asia. The special feature of the model is, that the design creates a different visual experience from every point of view. The purpose of this unusual shape is to make this pendant a captivating and outstanding element of any room on its own. Due to its elongated form, it best suits rooms with high interiors. The lamp itself creates a unique and exclusive atmosphere in any room and it can also be emphasized by additional lighting (e.g. spot lights).
