Space

The exploration and images of the universe has inspired many designers. Daniel Mato is no exception in this manner, he has always admired the extraordinary shapes, that can be found in space. He designed the Space pendant to show his respect and fascination towards the creating power of our universe . The form of this pendant resembles space objects, the asteroids' orbits and the impact of gravity. However some people get the impression of an angel, or a graceful bird.

DESCRIPTION

Space pendant's form was inspired by asteroids' orbits and the impact of gravity of celestial bodies on these orbits. Still, some say it resembles an angel, others think it looks like a graceful bird.

Note: some parts of our products are made by hand, therefore colors, shapes and finishes may vary slightly. We do our best to minimize these differences.

Dimensions:

[_ \(https://www.loomiosa.com/wp-](https://www.loomiosa.com/wp-content/uploads/2017/03/space_dimension.jpg)

[content/uploads/2017/03/space_dimension.jpg\).](https://www.loomiosa.com/wp-content/uploads/2017/03/space_dimension.jpg)

Materials:

Aluminium: The outer shade of the pendant light is made of anodized and painted high quality aluminium tubes, that provide a beautiful, glossy surface finish, yet allow the structure to remain lightweight.

Polyamide: Multijet Fusion (MJF) and Selective Laser Sintering (SLS) are the 3D printing technologies, that suit best our unique products. The printed plastic holder enables the metal poles to create a special sequence and form the final shape of this pendant.

Glass: The shape of the integrated internal white glass follows the main shape of the poles. With the LED bulb inside, it provides stray light sideways and more concentrated light downwards.

Steel: Ceiling cover, powder coated black or white.

Light Source:

E27 socket, LED only, max 20 W

Delivered with a LED bulb (Osram, Phillips, Inesa or similar) E27, 11 W, 1055 lumen, 4000 K, cold white, non-dimmable, may vary). Warm white 2700-3000K available on request, however we still recommend cold white.

The use of special bulbs such as halogen, mirror or 12 V bulbs in Loomiosa light fixtures is prohibited, due to overheating.

Cable:

150 cm, textile cable, ceiling plug/connector, ceiling cover.

Other lengths available on request.

Classification:

Ingress Protection IP20 (Protected against solid foreign matter with a diameter starting at 12.5 mm, no water protection)

IEC Protection Class II

CE marking

Packaging:

carton box,
67x26x22 cm
Weight: 4,5kg

Assembly:

The pendant is delivered partially assembled. Final assembly is required according to the provided manual. Assembly duration: 30-60min.

Cleaning:

Wipe with a soft, dry cloth. Do not use polishing agents, water or abrasive materials when cleaning. Always switch off the electricity supply before cleaning.

Estimated delivery: 6-10 weeks (depending on color)
