PRODUCT DESCRIPTION

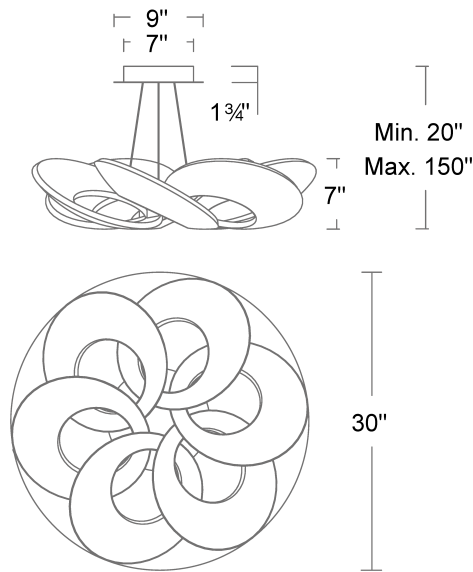

Galactic Motion. Groundbreaking Light. The Planetarium Pendant is lighting as art — a bold expression of technology and design. Inspired by the orbits of celestial bodies, its fluid composition of layered forms radiates outward, casting dynamic illumination through a silicone diffuser. The result is a striking visual statement that feels alive, weightless, and in motion. Equipped with 4CCT selectable color temperature technology, Planetarium lets you dial in the perfect light for any atmosphere — from warm, intimate glow to crisp, functional brightness. Suspended over a dining table, stairwell, or great room, it becomes the gravitational center of any space, drawing the eye and anchoring the design. Planetarium redefines what a pendant can be — more than illumination, it's an experience of light, movement, and imagination.

FEATURES

- Driver concealed within the canopy
- Silicon diffuser
- Thin, powered aircraft cables provide an ultraclean look for adjustable suspension height
- Spin on round canopy with minimal hardware
- Built in color temperature adjustability. Switch from 2700K/3000K/3500K/4000K

SPECIFICATIONS

Rated Life	54000 Hours
Standards	ETL, cETL, Damp Location Listed
Input	120-277 VAC, 50/60Hz
Dimming	ELV, 0-10V, TRIAC
Color Temp	2700K/3000K/3500K/4000K
CRI	90
Construction	Steel frame with silica diffuser
