PRODUCT DESCRIPTION

Reclaimed Crystal. Redefined Luxury. The Kiernan Pendant turns raw material into modern art. Crafted from reclaimed crystal — this sculptural design transforms sustainability into sophistication. Its elongated, tapered silhouette feels architectural yet timeless, refracting light into every angle. More than a source of illumination, Kiernan is a conversation piece. Suspended o dining table, styled in pairs above a kitchen island, or showcased in an entryway, it delivers luminous drama with an eco-conscious twist. And, this is compatible with WAC Home system for Tunable White and Dim-to-Warm lighting (1800K – 4000K), for a personalized lighting experience that is designed to elevate contemporary interiors with radiant clarity and understated opulence. Kiernan isn't just lighting — it's the intersection of art, innovation, and responsible design.

FEATURES
