# INSTALLATION NOTES

---

The luminaire is powered by line voltage and is rated for inputs between 220-240VAC.

Two people are recommended to install the Orbit Pendant; one to gently support the luminaire while the other makes the electrical connections and mechanical connections to the ceiling.

For questions regarding installation, please email **info@a-n-d.com**

---

## CARE INSTRUCTIONS

Always wear clean gloves when handling the luminaire. Clean finished surfaces with a soft, lint-free cloth or magic eraser.

Clean glass with a clean cloth and glass cleaner. When changing light bulb, turn fixture off and allow to cool to room temperature prior to removing glass.

For replacement parts contact A-N-D directly.

Never exceed the recommended wattage and voltage (5W MAX, 230V), as doing so may damage the luminaire or cause a fire.

---

## WARNING

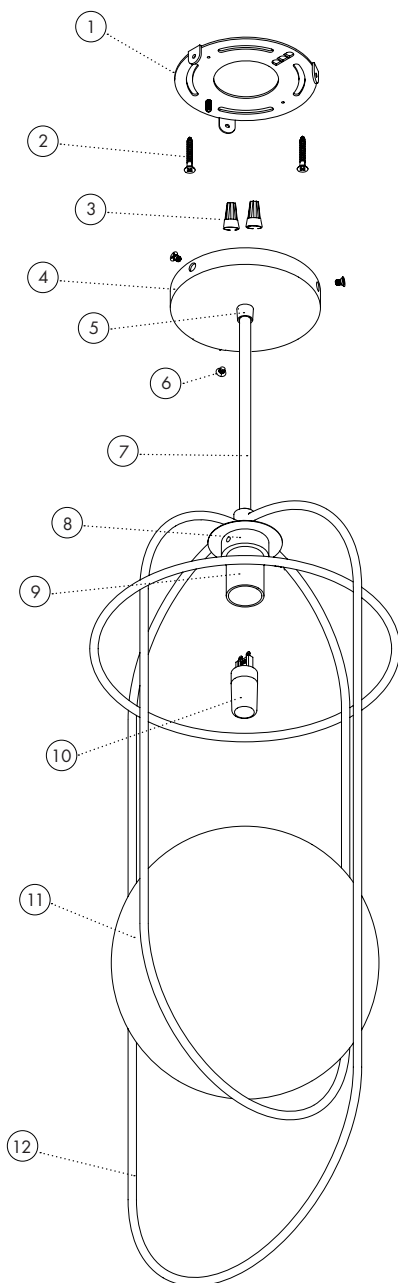

The luminaire must be installed by a qualified electrician in a dry indoor location.

Failure to meet any or all of these criteria will not only damage the luminaire, but will void both the warranty and all of its certifications.

# COMPONENTS

- ① BACKPLATE
- ② #8 SCREWS (2)
- ③ WIRE NUT (2)
- ④ CANOPY
- ⑤ STRAIN RELIEF
- ⑥ CANOPY SCREW (3)
- ⑦ ELECTRICAL CORD
- ⑧ GLOBE HOLDER
- ⑨ G9 SOCKET
- ⑩ G9 LAMP
- ⑪ GLASS GLOBE
- ⑫ ORBIT CAGE

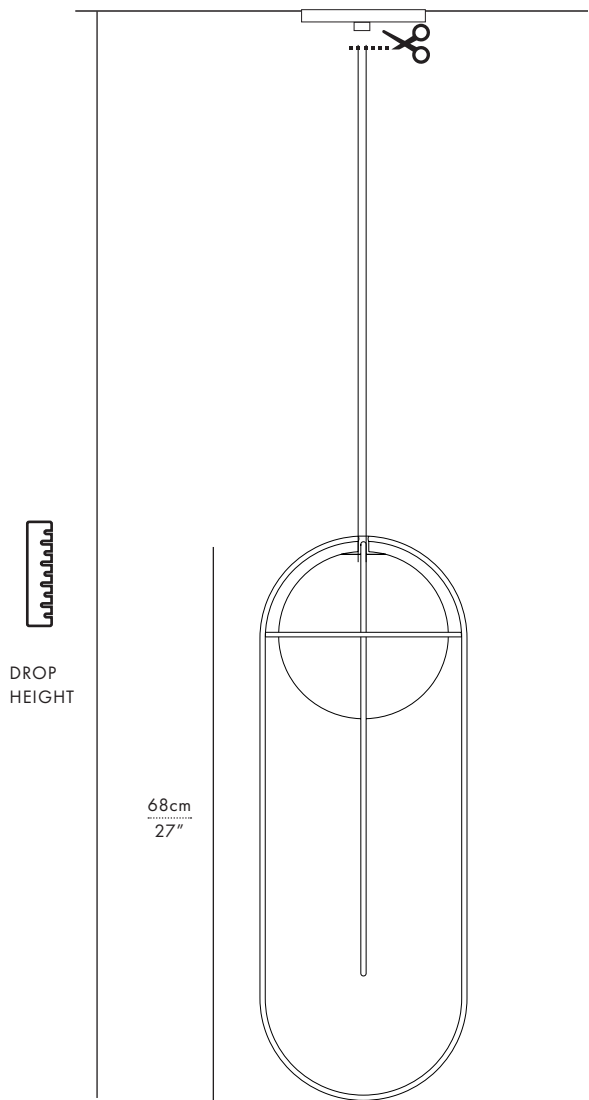

# PREPARATION

## STEP 1

**Determine the drop height of the fixture and trim excess cable.**

**Electrical cord length:**

Add an extra 15cm/6" to the drop height. This allows for adjustment and electrical connections inside the canopy.

# INSTALLATION

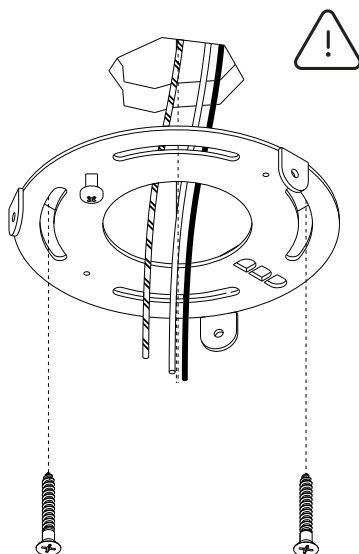

## STEP 2

**Mount the backplate to the ceiling.**

Use the provided #8 screws.

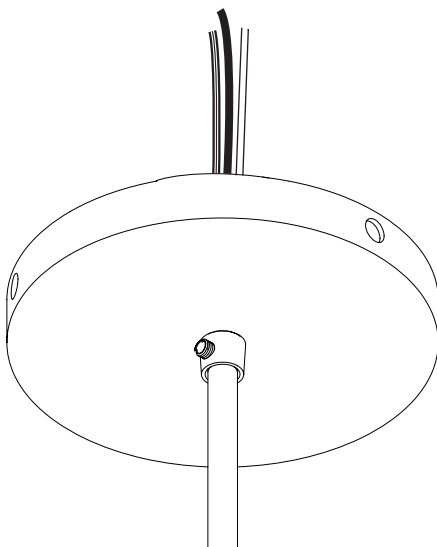

### **Caution!**

Ensure that the power is disconnected.

## STEP 3

**Pull the electrical cord through the strain relief on the canopy.**

# INSTALLATION

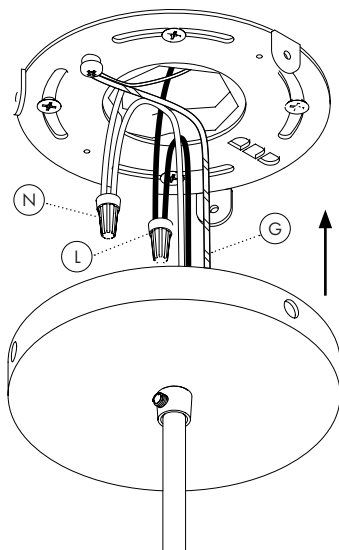

## STEP 4

**Connect the luminaire to input power. Connect ground.**

Black/brown wire = **Line** (L)

White/blue wire = **Neutral** (N)

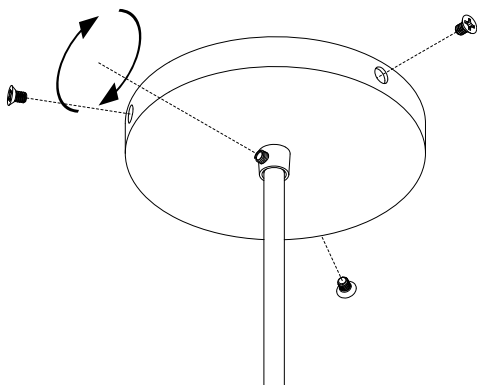

Green screw = **Ground** (G)

## STEP 5

**Mount the canopy to the backplate.**

Use the provided colour matched canopy screws.

## STEP 6

**Secure the electrical cord.**

Tighten the set screw on the strain relief until the electrical cord is held in position.

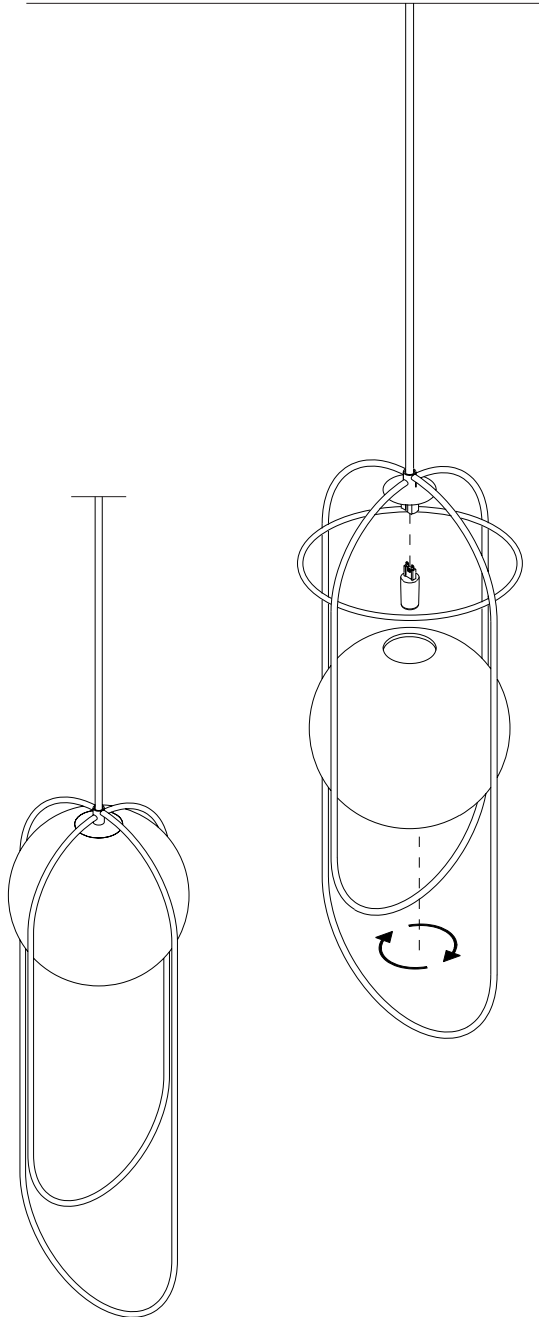

## STEP 7

### Install the lamping and glass globe.

Remove the glass globe from the threaded globe holder. Spin the glass globe counter-clockwise until it becomes free.

Push the G9 Lamp into the socket. A 'click' will indicate proper installation of the lamp into the socket.

Re-install the glass globe. Turn it clockwise until flush with the globe holder, taking care not to force or damage the threading.
