INSTALLATION NOTES

The luminaire is powered by 300mA. A constant current LED driver is required to operate the luminaire. The LED driver varies, depending on input voltage and dimming requirements.

For questions regarding installation, please email **info@a-n-d.com**

CARE INSTRUCTIONS

Always wear clean gloves when handling the luminaire. Clean finished surfaces with a soft, lint-free cloth. Clean glass diffuser with a microfibre cloth and a standard glass cleaner. When changing light bulb, turn fixture off and allow to cool to room temperature prior to removing glass.

For replacement parts contact A-N-D directly.

WARNING

The luminaire must be installed by a qualified electrician in a dry indoor location.

Failure to meet any or all of these criteria will not only damage the luminaire, but will void both the warranty and all of its certifications.

COMPONENTS

- | | |
|--------------------|-------------------|
| ① LED DRIVER | ⑥ ELECTRICAL CORD |
| ② WIRE NUT (6) | ⑦ LUMINAIRE |
| ③ BACKPLATE | ⑧ M3x18 SCREW (3) |
| ④ #8-32 SCREWS (2) | ⑨ GLASS DIFFUSER |
| ⑤ CANOPY | |

PEBBLE OPTIONS

The Pebble Ceiling/Wall is available in 4 sizes,
and can be installed on either the ceiling or the wall.

GLASS 'A'

GLASS 'B'

GLASS 'C'

GLASS 'D'

DRIVER OPTIONS

The Pebble Ceiling/Wall LED driver varies depending on dimming requirements and input voltage.

Use the ordering code to determine the selected driver:

ie. PEB-P-A-SL-B-CL-010-277

DIMMING --- INPUT VOLTAGE

This universal dimming power supply can be controlled via 0-10 dimming or Phase Cut on primary.

ESS015 SERIES - ERP

INPUT: 120-277VAC

OUTPUT: 300mA, 12.6W

L x W x H: 85 x 31 x 31

DIMMING OPTIONS

① PHASE CUT (PC)

② 0-10

INSTALLATION

STEP 1

Ensure that power is disconnected and Connect the input power to the primary circuit on the LED driver. Connect ground.

Black/brown wire = **Line** (L)

White/blue wire = **Neutral** (N)

Green screw = **Ground** (G)

⚠ ATTENTION!

If using Phase Cut dimming, cap the purple DIM+ and grey DIM- wires and ignore them.

REFER TO PAGE 5: DRIVER OPTIONS FOR MORE DETAILS

STEP 2

Place the LED driver inside the junction box and attach the backplate to the junction box.

Use the provided #8-32 screws.

STEP 3

Connect the luminaire to secondary circuit on LED driver.

Place the canopy over the backplate, then make the wire connections.

Red wire = **Positive** (V+)

Black wire = **Negative** (V-)

STEP 4

Connect the luminaire to the backplate.

Use the provided M3x18 Screws.

Turn the screws until the luminaire and canopy are tight to the mounting surface.

INSTALLATION

STEP 5

Attach the glass diffuser to the luminaire.

Turn the glass diffuser clockwise until it touches the base of the luminaire.

Caution!

Do not use force to thread the glass diffuser. Take great care not to misalign the threads. Proper alignment will result in the glass diffuser spinning easily into place.
