LAMP HOLDER ASSEMBLY

Fig.5

Turn the assembly around.

Remove the lamp holder.

Insert a flat headed screw driver inside the opening of the lateral clamp and unhook the lamp holder (D) from the support. Repeat the same operation also for the opposite side.

Fig.6

Remove the lamp holder from its support and disconnect the electrical wires by pressing the push terminals with a paper clip (E) or something similar.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

## RF2500200

LAMP HOLDER ASSEMBLY

Fig.7

Fig.8

Cut-off the cable tie (F) and remove the cable isolator (G) from the electrical cable.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

## RF2500200

LAMP HOLDER ASSEMBLY

Fig.9

Unfasten the locking screw (H) by utilizing a tiny flat headed screw driver.

Fig.10

Remove the lamp holder support (I) by unfastening it from the assembly.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

## RF2500200

LAMP HOLDER ASSEMBLY

Fig.11

Fig.12

Fig.13

Assemble now the new spare-part:  
Tighten the lamp holder support (I) onto the assembly and then fasten the locking screw (H) by utilizing a flat headed screw driver. Insert the isolator (F).

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

**RF2500200**

LAMP HOLDER ASSEMBLY

Fig.14

Fig.15

Connect the electrical wires to the lamp holder by utilizing always the paper clip. Connect the Brown "L" (live) wire in the terminal that corresponds (opposite side) to the centre brass contact of the lamp holder and then connect the Blue "N" (neutral) wire in the other terminal.

N.B. The electrical wires are connected by pushing the wires inside the terminals, therefore it is necessary to verify that they are connected properly.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

## RF2500200

LAMP HOLDER ASSEMBLY

Fig.14

Now reassembly the lamp:

Hook the lamp holder (D) on the support (I). Turn up-side down the assembly around and pull back the electrical cable (C).(Fig.4 page 7)

Position the electrical cable) between the two threaded holes and fix the cable clamp (B) by fastening the 2 screws.(Fig.3 page 7)

Position the cover base (A) on top of the assembly (the holes of the cover must correspond with the plastic pins of the assembly) and then push down on the cover so that it clicks onto the assembly.(Fig.2 page 6)

Fig.15

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

# RF32262

LED DIMMER 1004P LFP100-240V 4-150WHL 4-25W

Fig.3

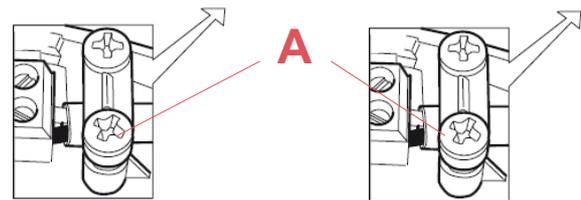

Fig.3.1

Remove the cable clamps by unfastening the 4 screws (A) and disconnect the wires from the terminal blocks through a tiny flat headed screw driver;

Fig.4

Replace the dimmer and connect the wires. When connecting the wires it is necessary to respect the polarities (L = Brown and N = Blue) to the terminal box. Lock the electrical cables by fastening the screws (A) of the cable clamps and make sure to block the isolation of the electrical cable.

Close the dimmer box.

It is necessary to place the casing on top and press down until it locks in. it is necessary to insert the n°2 screws using a star screw driver

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.
