# Bola Bell

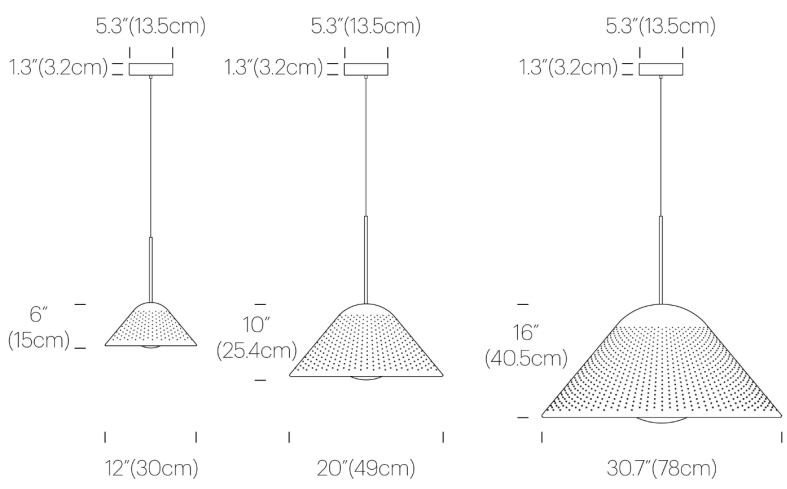

Bola Bell reimagines the familiar glow of the Bola collection through a gently flared silhouette where light meets surface in a more tactile way. Its spun-metal shade, punctuated by a constellation of fine perforations, softly diffuses illumination while revealing a quiet interplay of light and shadow. The result is both atmospheric and precise. With an integrated tilt that allows the light to shift and respond to its environment, Bola Bell offers a dynamic presence, equally suited to intimate settings or expansive spaces.
