

PASTOE

Paperback Wallsystem

STUDIO PARADE

The Paperback by Studio Parade is more than just a bookshelf – it is an architectural statement. This playful wall system combines functionality with graphic appeal. Its slim shelves create a rhythmic vertical pattern, turning books and objects into a lively display. The way you fill the shelves ultimately defines its visual effect. Paperback can be used as a standalone unit or combined horizontally and/or vertically to create a wall-spanning system. The back panel of the Paperback is mounted directly to the wall, after which thirteen sturdy shelves are easily inserted into place. Three of these shelves feature a special ‘tab’, making them perfect for displaying larger books or magazines.
