

SWELL PLANTER

Small, White

For those who love to surround themselves with banks of flowers in a riot of colors but who have contemporary tastes, we offer the Large Swell Planter. Made of composite in a creamy finish, this garden accent will allow the flowers or plants within it to take center stage. The character of the surface illustrates the talent of our finish artisans and the rolled lip on its topmost edge is a tailored design note. This planter is just as perfect for indoors, as it does not come with a pre-drilled hole. If you bring it inside, place this garden planter in front of a glass door and watch the flora thrive! We have a smaller version of the Swell, both of which reflect Phillips Collection's ethos: modern organic.
