

## CYCLADIC HEAD, SCULPTURE, TRIANGLE

**White Stone**

Greek Cycladic sculptures have long been seen as symbols of art with design elements from this era being particularly popular in the modern home. With a single line to signify the entirety of the face, Our Cycladic Head Sculpture is a geometric minimal design. The faces are deeply expressive with their unique ability to capture the imagination; cast from artisan-grade resin and finished in our white stone finish. The simplicity of Cycladic Head Sculpture is their main charm, and when displayed in your own space they become an expression of beauty and a conversation starter!
