

CAST WOMEN SCULPTURES, A , COLOSSAL, ROMAN STONE

The female figure has been celebrated in art as long as artists have been expressing their creativity. The Colossal Roman Stone Cast Woman Sculpture A is an abstracted female form in amplified proportions at 99-inches tall. The Roman Stone finish brings it a vintage vibe, and the aged patina makes this decorative sculpture look like it's made of stone. We have six variations of this tall, thin sculpture in ivory and six in a Splinter Stone finish for a darker gray surface.
