Thank you for purchasing the Mater Bar Table Base

Mater Bar Table Base, H 105 cm

Partly recycled steel

Designed by
Mater

Dimensions
W 45 cm D 45 cm H 105 cm
/ W 17.7" D 17.7" H 41.3"

Weight
18,45 kg / 40,7 lbs

Material
20% recycled steel,
gunmetal finish

Maintenance guide

Always remove stains quickly before they can do any permanent damage to the furniture. When you move your furniture make sure you lift it rather than pulling or pushing it to avoid damaging the floor, legs and mountings. Avoid improper use such as tilting, putting your feet on the furniture or standing on it. Be careful not to damage or scratch the surface with sharp objects. Minor spots of rust under the furniture and bases are considered as a natural result of general use.

Steel

A steel surface is durable and requires very little maintenance. It is recommended to use only a soft, dry cloth to clean powder-coated surfaces; however, if more thorough cleaning is needed, a soft cloth wrung out in lukewarm water can be gently applied. Always dry the surface immediately after cleaning with a soft, dry cloth. Avoid using abrasive cleaning agents or aggressive detergents on powder-coated surfaces, as these may permanently damage the finish. Minor scratches or damages to the surface can lead to corrosion.

Important Note

When assembling the Mater Tabletop to the Café, Bar, or Counter table base, always use a torque screwdriver to avoid damaging the mountings beneath the tabletop. Take care not to overtighten the screws.

When lifting or moving the table, always hold it by the base rather than the tabletop to prevent damage to the mountings.
