

MONTROSE CHANDELIER

Fully adjustable integrated LED chandelier with an antique brass finished aluminum frame featuring sliced alabaster tiles and brass details. Chandelier is complete with an antique brass finished metal canopy hanging kit and adjustable cable wires, which are easily cut, and allows customizable hanging heights. Alabaster is natural material that is sourced from a rare mineral created from a metamorphic rock formation process. The white smoke color is natural and will slightly vary in color and grain, no two pieces will be alike. Professional installation recommended. Lighting fixtures weighing more than 50 lbs. are not able to be mounted directly to a standard ceiling junction box and may require additional support from a ceiling brace as needed.
