

## Geneve Extension Dining Table - 80" to 104"

110737

Appreciate warmth and sunlight while seated in an outdoor dining space inspired by the Arizona desert. This modern extension table features a powder coated aluminum base with a drift brown teak wood top. Extends up to 104". Teak wood will develop a silver-grey finish over time. As wood is an organic, porous material, these pieces will contain natural variation of texture and may also exhibit fine indentations and cracks. Wood pieces will also display a disparity of colour and grain, and visible knots and burls that add to the character of each piece. Teak wood has a high oil content that enables its outdoor resistant properties. These natural oils may surface and potentially leave teak marks on fabrics upon contact, which can be easily washed away. Visit our Product Care page for more information on how to ensure the lasting beauty of this piece.
