

Notch

Installation and Product Guide

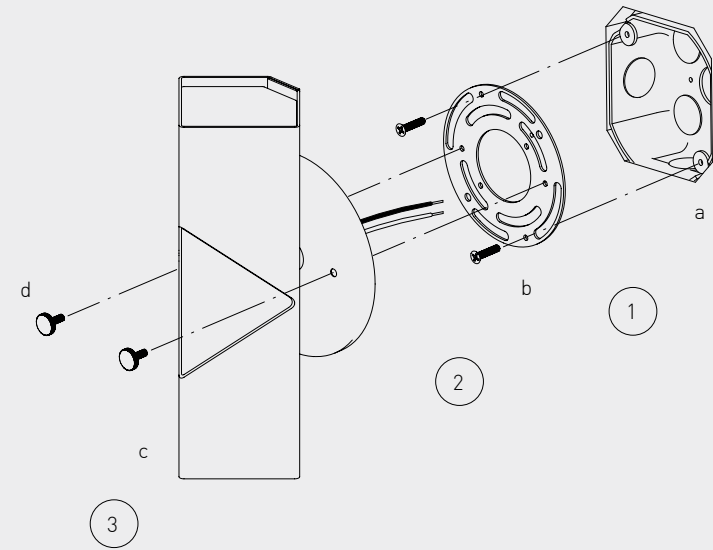

CAUTION: Electric shock risk. Turn off electrical power at breaker before beginning installation. RBW recommends this product be installed by a qualified electrician only.

Notch

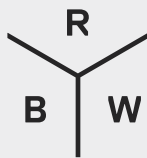

For dimmer, we recommend the Lutron CL series: Single pole/ 3-way (Gloss, boxed packaging), 120 V / 600 W Inc/hal, DVCL-153P

FIXTURE MOUNTING

Installation

1. Attach crossbar (b) to junction box (a), screws not provided.
2. Attach leads from canopy / escutcheon of the wall sconce through the hole in crossbar to line voltage. Attach ground wire.
3. Secure canopy / escutcheon plate to the wall by using the two provided thumbscrews.
