

Drift Pendant - 500

New

Michael Young | 2025

The Drift pendant is a study in purity and precision, its mathematically formed silhouette designed to distribute light evenly across its entire surface. Available in two sizes, Drift can stand alone or be grouped in clusters, each angle revealing a new facet of its shifting form. Inspired by pebble stone paving, Drift is suited to both residential and commercial settings, its refined presence quietly enhancing each space with gentle, ethereal illumination.
