

## GRAIN DRUM 14

Made over a wooden mold that has been sandblasted to raise the grain, the Grain Drum 14 is perfect above a kitchen island or dining table. The book-matched grain you see when looking at the shade is the result of using one continuous board glued together and cut down to make the spinning tool. Three candelabra bulbs, which are concealed behind a spun grain reflector, illuminate the Grain Drum 14 giving the impression of standing under an eclipse.

**CARE** | Clean with soft microfiber cloth which can be dampened if necessary.
