

## PEARL 6

Pearl 6 continues our exploration of the half-square, half-circle Lamé Curve at a larger scale. This pleasing shape is geometric with its plotted arcs yet organic in its roundness, with parallels to natural forms. Made of blown white glass, Pearl 6 is at home gracing rooms as a flush mount ceiling fixture or making a statement as a wall mounted sconce.

## PEARL 6 PULL CHAIN

Pearl 6 Pull Chain is our exploration of the half-square, half-circle Lamé Curve, a mathematical formula behind mid-century designer Piet Hein's super egg and superellipse. A geometric yet organic matte white glass globe is paired with a spun metal canopy with an integrated pull chain switch. When the brass pull is engaged, the fixture emits a soft, diffused glow.

## PEARL 6 SEAMLESS

Pearl 6 Seamless allows our larger Pearl globe to be mounted without a visible canopy. Our exploration of the Lamé Curve, Pearl's shade is geometric with its plotted arcs yet organic in its roundness, with parallels to natural forms. Made of blown white glass, Pearl 6 Seamless comes with a mounting plate that can be mudded in on drywall or mounted behind stone or tile. Outdoor rated upon request. Pearl 6 Seamless is at home as a considered highlight to wood, stone or tile walls or in clusters on a ceiling to provide general illumination.

## PEARL 6 ADA

Pearl 6 ADA takes on the larger envelope of our Pearl 6 but shrinks the overall depth of the globe by four inches for ADA compliance. This smaller form factor makes it a perfect sconce for mounting along hallways or as vanity lights, but the fixture is equally at home as a flush mount fixture on ceilings where head height is at a premium.
