SAVE THESE INSTRUCTIONS!

Install the Fixture

1A

- 1** Temporarily install the mounting plate to the junction box.
- 2** Mark the anchor locations through the holes on the mounting plate. Remove the mounting plate.
- 3** Drill appropriate sized holes at the marked locations and install the anchors.
- 4** Secure the mounting plate to the junction box and screw the anchor screws into the anchors.
- 5** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 6** Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 7** Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 8** Neatly place all the wires into the junction box, place the fixture base onto the mounting plate, and secure it in place using the fixture screws.
- 9** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
- 10** Install the diffuser onto the studs on the brackets, then secure in place by screwing the cap nuts onto the studs.
