# Install the Fixture

- 1** Secure the mounting plate to the junction box leaving the mounting screws partially screwed in to allow fixture installation later on.
- 2** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 3** Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 4** Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 5** Neatly place all the wires into the junction box, align the fixture holes with the mounting screw heads, rotate the fixture to lock in place, and tighten the mounting screws completely.
- 6** Align the diffuser holes to the threaded stud and secure it in place by screwing the cap nuts onto the studs.
