

Tidal,
Design by Needs Studio

Model Tidal 60

Tidal is a ring-shaped ceiling lamp that evokes the motion of the tide and celestial bodies. Its fluid and oval design mimics wave movements and tidal changes, with one side wider than the other, appearing differently to the viewer depending on their position under the lamp.

The die-cast aluminium body projects light up and down at the same time. The ring discreetly hides all the technical elements inside the design, enhancing the object's aesthetic value.

Measuring 60 cm, Tidal is available in four matte finishes: white and the new black finish, suited to minimalist interiors, terra and champagne, which offer a more decorative touch for embellishing spaces with their warm and elegant tones.
