DIFFUSER INSTALLATION INSTRUCTIONS

⚠ Refer to Installation Diagram for electrical connections.

- 1 Secure LED board to the j-box.
- 2 Place ceramic backplate over LED board.
- 3 Attach diffuser starting from the top, make sure you are attaching the narrow side first. Screw provided hardware onto the studs.
- 4 Attach bottom, making sure to gently bend the diffuser material, DO NOT press hard or creases may form.
- 5 Attach both sides the same way, taking care to not over bend the diffuser material.
