Antique bronze, Polished nickel,
Brushed brass, Brushed nickel

Product Details

Each Honeycomb pendant is made using a custom-made mold and cast glass to ensure consistency. The thicker glass is sculpted laser cut to create the diamond shape. The inner design is made with silver leaf or gold leaf with LED COB light source on the top to illuminate the glass.

Whether you want tri-pendants, or a multi-pendant chandelier, you may customize your fixture with as many pendants as you need - all tailored to fit your space and your style.

Each fixture included: canopy, transformer, lightbulbs, and adjustable* chain.

As all of our items are hand-made, sizes are approximate. Variations in size, color, shape, and texture (including but not limited to fissures, bubbles, cracking, and crazing in the glass) are inherent to all of our glass
