## Safety Information

### IMPORTANT SAFETY INSTRUCTIONS

This portable lamp has a polarized plug (one blade is wide than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.

Turn off electrical current at the source before working with any lighting fixture or portable lamp.

Install and use this product in adherence with local electrical codes and regulations.

## FIXTURE ANATOMY

- A. Plug and Switch
- B. Base
- C. Stem
- D. Top stem
- E. Socket
- F. Bulb (Not Included)
- G. Shade

## INSTRUCTIONS

1. Secure both stem components together, then insert the stem assembly into the base.
2. Insert a light bulb into the socket. Refer to the label on the socket for Max Wattage information.
3. Remove the shade from its packaging and attach it to the socket.
4. Remove the protective cover from the plug and plug the fixture into a functioning electrical outlet.
5. Use the lamp switch to turn it on/off to test its functioning and complete the process.
