

**Rhonon Flush Mount (LED)****700FMRHNS\_-LED 1.0**

VISUAL COMFORT &amp; Co.

MODERN COLLECTION

**GENERAL PRODUCT INFORMATION:**

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

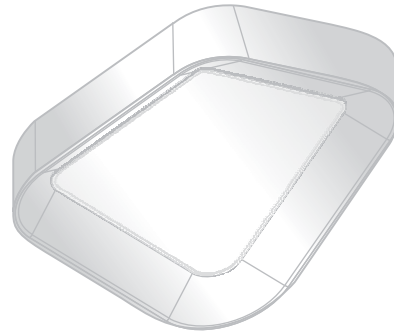

This product is suitable for damp locations.

This product can be dimmed with a low-voltage electronic dimmer.

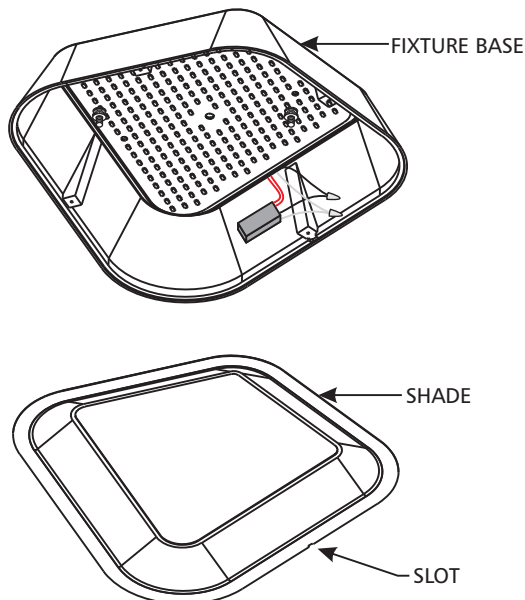

This fixture may be ceiling or wall mounted.

This instruction shows a typical installation.

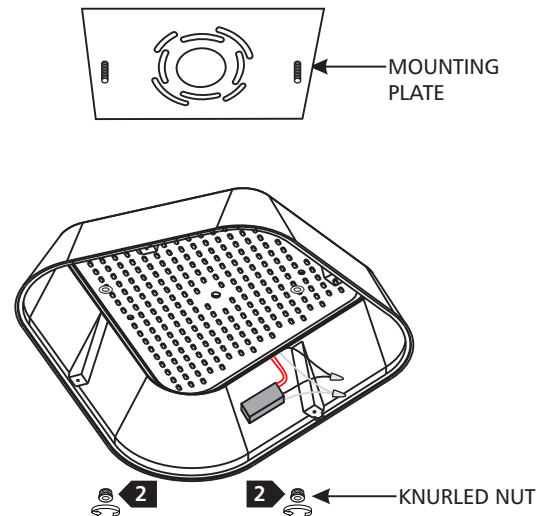

**CAUTION - RISK OF FIRE**

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

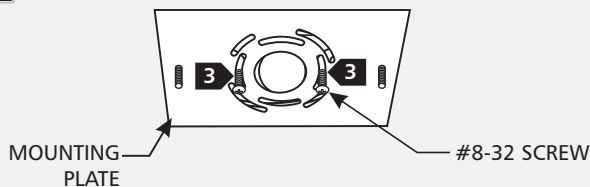

**Install the Fixture****1A**

- 1** Insert a flat head screw driver into the slot on the shade and separate the shade from the fixture base.

**1B**

- 2** Remove the mounting plate from the fixture base by unscrewing the two knurled nuts.

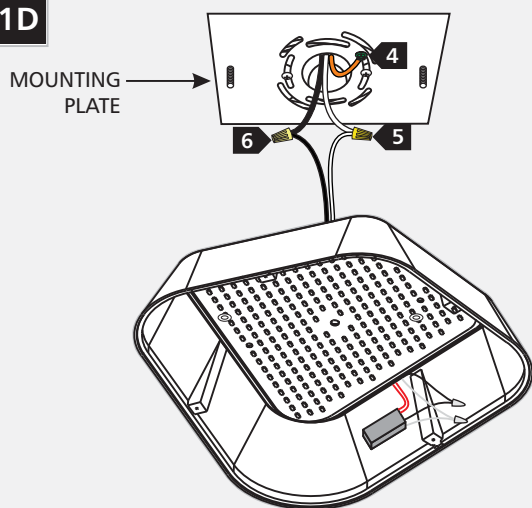

1C

- 3 Secure the mounting plate to the electrical box with 2 #8-32 screws.

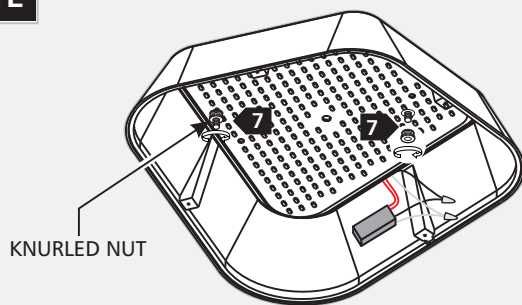

**NOTE:** Install the mounting plate so that the studs are parallel or perpendicular to the walls, this will ensure that the fixture is oriented to the room.

1D

- 4 Connect the fixture to a suitable ground in accordance with local electrical codes.
- 5 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 6 Connect the black fixture wire to the hot power line wire with a wire nut.

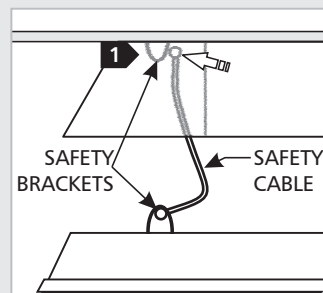

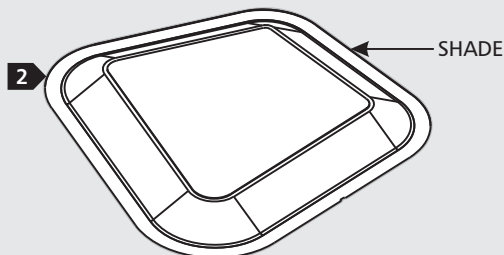

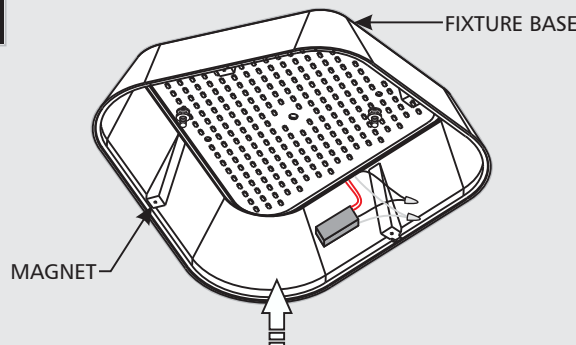

1E

- 7 Mount the fixture base to the ceiling by reinstalling it onto the mounting plate and secure it tightly with the knurled nuts.

## Install the Shade

2A

- 1 Hook the safety cable through the safety brackets located in the fixture base and back of the shade.
- 2 Insert the shade into the fixture base until it is secured in place against the magnets. **Note:** Support the shade from the outer sides, do not push against the center of the shade.
