1 ▶ Separate the mounting plate from the fixture by removing the Allen screws with the provided Allen wrench.

2 ▶ Temporarily install the mounting plate to the junction box with the #8-32 screws.

3 ▶ Mark the anchor locations through the holes on the mounting plate. Remove the mounting plate.

4 ▶ Line up an anchor tip with the center of an anchor hole and push the anchor into the ceiling/wall up to the threads. Screw the anchor in the rest of the way with a screwdriver.

5 ▶ Secure the mounting plate to the junction box with #8-32 screws.

6 ▶ Slide an anchor screw through a washer and screw it into the anchor to secure the mounting plate to the ceiling/wall. Repeat steps 4 and 6 for the remaining anchors.

7 ▶ Screw the diffuser into the fixture base and secure it in place with the set screw using the provided Allen wrench.

8 ▶ Connect the fixture to a suitable ground in accordance with local electrical codes.

9 ▶ Connect the white fixture wire to the neutral power line with a wire nut.

10 ▶ Connect the black fixture wire to the hot power line with a wire nut.

11 ▶ Properly place the wires and wire nut connections into the junction box, then install the fixture onto the mounting plate with the Allen screws using the provided Allen wrench.
