

INSTALLATION INSTRUCTIONS

Model# 71264-66/ 71264-66-C

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

PREPARING FOR INSTALLATION (Fig. 1)

1. Shut off power at the fuse box or circuit breaker box and remove the old fixture including the mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts in a clear area. Take care not to misplace any small parts necessary for installation.
3. Secure rod (O) to all thread (N) on frame and pass wires carefully through rod.
4. Determine the desired hanging height and thread rods (P) to all thread on rods (O). Secure all thread (Q) on canopy (G) onto last rod (P).
5. Thread mounting screws (C) into mounting plate (B) ensuring they are spaced the same distance apart as holes in canopy (G).
6. Attach mounting plate (B) using outlet box screws (F) to outlet box (A) (not supplied). The side of mounting plate marked "GND" must face out. (Fig 1)
7. The support cable (R) is provided to support the weight of fixture while wiring. Align fixture to mounting plate (B) and attach the end of support cable (R) into a slot located on mounting plate (B). Carefully allow support cable (R) to support weight of fixture while wiring (Fig.1).

CONNECTING THE WIRES (Fig. 2)

8. Connect the electrical wires as shown in Fig 2. with connector (E), make sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect fixture's ground wire to it. Otherwise, connect fixture's ground wire directly to mounting plate (B) using green screw (D) provided.
9. Tuck wire connections neatly inside outlet box.

FINISHING THE INSTALLATION (Fig. 1)

10. Place canopy (G) over mounting screws (C,2pcs) and secure to ceiling by using cap nuts (H,2pcs). (Fig 1)
11. To replace the glass, remove gaskets (M,8pcs) and loosen screws (L,8pcs) to remove lower cover (K). Insert new glass (J) into fixture frame from the bottom. Secure lower cover (K) by threading screws (L,8pcs) until tight and reinstall gaskets (M,8pcs) on the lower cover (K).
12. Install (4) four candelabra base bulbs (I) up to 40 Watts, or CFL or LED equivalent (not included), in accordance with the fixture specification. (DO NOT EXCEED THE MAXIMUM WATTAGE RATING) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)
13. This fixture is ETL listed for damp location applications.

Your installation is now complete. Return power to the outlet box and test the fixture.
