In their journeys through the Smithsonian Pollinator Garden, the designers at Varaluz reminisced about the many trails explored, both figuratively and literally. The word “estela” is a translation for the word “trail,” and this collection takes its inspiration from many of them and the nature surrounding them. Now all paths have converged in the Estela collection. We invite you to wander the cascading paths created by this new collection, where you’re sure to find your own path to enlightenment. For anyone looking for an inspired modern fixtures design, all trails lead to Varaluz. Estela features doubled up recycled wavy steel vanes finished in black with a slight gold edging inspired by the beauty of the Monarch butterfly.

Repurposed Galvanized Steel. Inspired by Life's Many Trails. Hand-Finished in Matte Black with French Gold Details.
