INSTALLATION INSTRUCTION LED201 - AC LED Track Luminaires H/L/LLED201 H/L/LLED202 H/L/LLED207 H/L/LLED207

H/L/J-LED201, H/L/J-LED202, H/L/J-LED207, H/L/J-LED208

FIXTURE INSTALLATION:

- 1. The track has a groove running its length to indicate polarity and the locking tab has an arrow indicating locking direction.
- 2. Insert adapter into track slot. The arrow should point to the grooved side of the track.
- 3. Push up and rotate the adapter into the lock position.
- 4. Reverse procedure to remove. The fixture may be positioned anywhere along the track.

BEAM ANGLE SELECT:

The fixture has two beam angles to be selected: flood and spot.

- 1. Remove the front baffle with a proper tool.
- 2. In order to get the flood beam angle; place the lens and spacer into the fixture consecutively.
- 3. In order to get the spot beam angle; place the spacer and lens into the fixture consecutively.
- 4. Snap the front baffle back into the fixture.

ACCESSORIES (Order separately):

The fixtures can accommodate colored glasses as accessories. The colored glasses can be installed in two ways depending on the desired beam angle.

- 1. Remove the front baffle with a proper tool.
- 2. In order to get the flood beam angle in color; place the lens, spacer and colored glass into the fixture consecutively.
- 3. In order to get the spot beam angle in color; place the spacer, colored glass and lens into the fixture consecutively.
- 4. Snap the front baffle back into the fixture.
