Array sideboards

Designed by Says Who

English text

The series is inspired by the wooden slate cladding found in modern architecture. With its geometric shape and horizontal slats, Array creates a strong visual effect from catching both light and shadow in the depth of the slats. The illusion of transparency is intended to create a feeling of growing curiosity as you get a glimpse of what is hidden behind the closed doors.

The sleek legs lift the sideboards from the ground creating an elegant contrast between the solid wooden cabinet on top and the thin metal construction underneath. Functional storage space inside and soft closing doors makes the cabinet both functional and beautiful.

Designed by Says Who

A Danish design studio founded by Kasper Meldgaard and Nikolaj Duve. Rooted in the traditions of Scandinavian design, Says Who combines minimalism with functionality to create furniture and design solutions. With their love for simplicity, the studio has collaborated with various international design brands.

Danish text

Array-serien er inspireret af den moderne arkitekturs facadebeklædninger af plader og lameller af træ. Med sine geometriske former og horisontale lameller indfanger Array både lys og skygge og skaber dermed stærke visuelle effekter.

Gennem mellemrummene, dannet af lamellerne, kan man ane, hvad der gemmer sig bag de lukkede låger, som er med til at skabe en følelse af voksende nysgerrighed. De slanke metalben løfter elegant kabinettet fra gulvet og skaber kontrast til det solide egetræskabinet.

Designet af Says Who

Says Who er et dansk designstudie grundlagt af Kasper Meldgaard og Nikolaj Duve. Forankret i traditionerne inden for skandinavisk design, kombinerer Says Who nordisk minimalisme med ren funktionalitet og deler derved deres kærlighed til enkelhed.
