

▼ start here

1. Find a clear area in which you can work.
2. Unpack fixture and glass from carton.
3. Carefully review instructions prior to assembly.

1. To begin assembly of fixture connect top and bottom stems together
2. Next secure bottom stem to ground spike
3. Secure top stem to fixture body
4. Slide glass inside of fixture body
5. Lock glass in place with the lock up knobs on the side of the fixture
6. Fixture can now be mounted and wired

LUMINAIRE MOUNTING: (for typical ground stake mounting)

1. To prevent electrical shock, disconnect transformer from electrical supply before installation or service.
2. Run wire from Luminaire through mounting hole in top of ground stake.
3. Attach Luminaire to ground stake by threading to the mounting hole in stake until it fits snugly against the bottom of stem.
4. Place stake in desired position and insert into ground until the flange of stake is flush with ground.
5. Strip the two wire leads from the Luminaire and connect to the main supply wire using the provided silicone filled wirenuts
